

MEDICAL REQUIREMENT BY COMMISSION
March 22, 2012

Alabama (AL) – confirmed by Nick Vonderau

Professional Boxing, Professional MMA, and Amateur MMA

1. Blood Work: All contestants in all bouts shall be tested for Hepatitis B, Hepatitis C, and HIV by a laboratory approved by the Commission. The initial test for Hepatitis B, Hepatitis C, and HIV shall be conducted within 180 days prior to competition. 165-X-22-.13
2. Physical: Pre-fight physical only.
3. Eye Exam: Any applicant that is more than 37 years of age and/or has competed in more than 200 professional rounds must submit a detailed dilated ophthalmological examination conducted by a state licensed ophthalmologist.
4. EKG: Not at this time.
5. Radiological Exams: None at this time.
6. Neurological Exam: Any applicant that is more than 37 years of age and/or has competed in more than 200 professional rounds must submit a detailed neurological examination conducted by a state licensed neurologist.
7. Urinalysis: Not at this time.
8. Female Fighters: Each female contestant, during the pre-fight physical, will be required to pass a pregnancy test administered under the direction of the examining physician, or such physician's authorized assistant. Female contestants submitting written documentation acceptable to the examining physician may be waived from the pre-fight physical pregnancy test. Such document will be limited to:
 - a) A copy of a lab report from a recognized clinical laboratory and dated within 10 days of the pre-fight physical attesting that the contestant is not pregnant, or
 - b) A statement from a state licensed physician, on such physician's letterhead stationery, stating that the contestant has undergone certain medical procedures rendering her medically improbable of bearing childrenReference: 164-X-4
9. Older Fighters: Any applicant that is more than 37 years of age must submit the following:
 - a) Detailed dilated ophthalmological examination, conducted by a state licensed ophthalmologist.
 - b) Detailed neurological examination, conducted by a state licensed neurologist.
 - c) Detailed cardiovascular examination to establish cardiovascular endurance by a physician.Reference: 165-X-2
10. Additional Requirements: Any applicant that has competed in more than 200 professional rounds.
 - a) Detailed dilated ophthalmological examination, conducted by a state licensed ophthalmologist.
 - b) Detailed neurological examination, conducted by a state licensed neurologist.

- c) Detailed cardiovascular examination to establish cardiovascular endurance by a physician.

Reference: 165-X-2

Alaska (AK) NO COMMISSION

Arizona (AZ) – confirmed by Matthew Valenzuela (602) 364-1721

1. Blood Work: HIV, Hepatitis B Surface Antigen, and Hepatitis C Antibody. Negative and nonreactive results are acceptable. Blood work is valid until December 31st of the year taken.
2. Physical: Must be performed by a licensed M.D. or D.O. Physical is valid until December 31st of the year taken.
3. Eye Exam: Ophthalmology eye exam has to be done by a licensed ophthalmologist only. This eye exam is valid until December 31st of the year taken.
4. EKG: Not at this time.
5. Radiological Exams: None at this time.
6. Neurological Exam: Not at this time.
7. Urinalysis: Not at this time.
8. Female Fighters: Same requirements as men, additionally, women must take a pregnancy test done at the weigh-ins.
9. Older Fighters: No additional requirements at this time.
10. Additional Requirements: None at this time.

Arkansas (AR) – confirmed by John Mattingly.

1. Blood work: None at this time.
2. Physical: Pre-fight physical only.
3. Eye Exam: None at this time.
4. EKG: Not at this time.
5. Radiological Exams: None at this time.
6. Neurological Exam: Not at this time.
7. Urinalysis: Not at this time.
8. Female Fighters: No additional requirements at this time.
9. Older Fighters: No additional requirements at this time.
10. Additional Requirements: None at this time.

California (CA) – confirmed by Christa Beck

Professional Boxing, Kickboxing, MMA, & Muay Thai

1. Blood Work: HIV Antibody, Hepatitis B Surface Antigen, Hepatitis C Antibody. Blood work needs to be done within one month of the date listed on the application
2. Physical: Must be administered and signed by a licensed M.D. or D.O. The exam is valid for the one year licensing period. The physical may be administered out of state, but a form approved by the commission must be supplied.
3. Eye Exam: An eye exam administered by either a licensed ophthalmologist or licensed optometrist is required. Eye exam is valid for the one year licensing

- period. The eye exam may be administered out of state, but on a form approved by the commission must be supplied.
4. EKG: Must be administered by a licensed M.D. or D.O. The EKG is valid indefinitely, unless the commission requires a new one on a case-by-case basis. The EKG does not have to be administered by the same doctor who conducts the physical, as stated on the website.
 5. Radiological Exams: MRI of the brain without contrast and the GRE Technique must also be included. The MRI scan is to be performed on a 1.5 Tesla MR Machine with capabilities including fast spin echo and FLAIR imaging. Image sequences should include axial T1, T2, and FLAIR images; coronal images should be performed as a T2 coronal; and a single sagittal T1 sequence. As soon as possible, please arrange to have the images placed on a CD and forwarded to the Commission at: 2005 Evergreen St., Suite 2010, Sacramento, CA, 95815. If a CD is not available, please forward the actual film within ten (10) days to avoid suspension of your license. MRI is valid for 5 years.
 6. Neurological Exam: A Neurological exam is required and is valid for 15 months.
 7. Urinalysis: Not at this time.
 8. Female Fighters: Pending litigation.
 9. Older Fighters: None at this time; however, the commission may require an evaluation or complete additional medical requirement based on their history (if they have not competed in a while, ring age, previous medicals, etc.).
 10. Additional Requirements: None at this time.

Amateur Boxing, Kickboxing, MMA, & Muay Thai

1. Blood work: None at this time.
2. Physical: All amateurs are required to submit and annual physical performed by a licensed M.D. or D.O.
3. Eye Exam: None at this time.
4. EKG: Not at this time.
5. Radiological Exams: None at this time.
6. Neurological Exam: Not at this time.
7. Urinalysis: Not at this time.
8. Female Fighters: No additional requirements at this time.
9. Older Fighters: No additional requirements at this time.
10. Additional Requirements: None at this time.

CHICKASAW NATION (OK) – confirmed by Haskell Alexander & Jeff Keel

Professional ONLY: Boxing, Kickboxing, MMA, and Wrestling

1. Blood Work: Hepatitis B, Hepatitis C, HIV. Blood work cannot be more than 90 days old when competing in a bout.
2. Physical: A physical performed by either an M.D. or a D.O. is required and is valid for one year.
3. Eye Exam: An eye exam is only required on a case-by-case basis, all depending on the fighter's health history, injuries, age, etc.
4. EKG: An EKG is only required if the ringside physician deems necessary and will be considered on a case-by-case basis.

5. Radiological Exams: Radiological exams are only required if the ringside physician deems necessary and will be considered on a case-by-case basis.
6. Neurological Exam: A neurological exam is only required if the ringside physician deems necessary and will be considered on a case-by-case basis.
7. Urinalysis: A urinalysis will be given randomly for drug screenings.
8. Female Fighters: females must take a pregnancy test the date of the event.
9. Older Fighters: Fighters 36 and above may be required to submit additional tests and exams as deemed necessary by the ringside physician.
10. Additional Requirements: Additional lab work will be required on a case-by-case basis when requested by the ringside physician. Most additional exams required by the commission on a case-by-case basis will be valid for one year, unless the fighter has sustained an injury after the exam has been performed.

10. Additional Requirements: None at this time.

Iowa (IA) – confirmed by Linda J. Moravec

1. Blood Work: HIV, Hepatitis B (type not specified), and Hepatitis C (type not specified) blood tests must be presented a week before the event. Blood work is valid for 6 months from the draw date.
2. Physical: A thorough physical exam must be administered immediately preceding the contest by the ringside physician and has to be an M.D. or D.O. The physical is valid only for the event it is being conducted for.
3. Eye Exam: None at this time.
4. EKG: Not at this time.
5. Radiological Exams: None at this time.
6. Neurological Exam: Not at this time.
7. Urinalysis: Not at this time.
8. Female Fighters: In addition to all other requirements, female fighters must take a pregnancy test immediately preceding the contest and is only valid for that contest.
9. Older Fighters: Unless recommended by the ringside physician, no additional tests are required for older fighters. Age not specified.
10. Additional Requirements: None at this time.

Kansas (KS) – confirmed by Troye Blackmon

Professional Boxing & Professional MMA

1. Blood Work: First time Licensees, within the state of Kansas, no matter what type of license you are applying for (managers, corners, etc...), will be given a onetime extended license. If the application is being submitted 6 months before the licensing year ends. A onetime maximum of 18 months (Example: January 1st,

2011 to July 1st, 2012) of licensure when you are a first time licensee. If you compete between the months of January to June, you will need to submit blood work listed below, but since your license will be good for the maximum of 18 months, to compete from July 1st to June 30th of the following year, you will need to provide another blood test. When renewing your license, in the state of Kansas, all blood tests taken more than 6 months prior to the date of submittal, will require a contestant to be retested. All blood work expires at the end of the licensing year. Requirements for professionals, contestants over 35, or if requested by the Kansas Athletic Commission:

- (A) Negative HIV
- (B) Negative hepatitis B surface antigen
- (C) Negative hepatitis C antibody
- (D) Procedures to complete when failing hepatitis B surface antigen test:
 - (1) Contestant must pass a hepatitis B "PCR" quantitative test.
 - (2) The quantitative limit must be within permissible limits according to the laboratory that administered the testing.
 - (3) Test and results must have been taken within two weeks prior to the event.

All blood tests taken more than 6 months prior to the date of submittal will require a contestant to be retested.

2. Physical: Physical must be administered by a licensed M.D. or D.O. Physicals are valid for the licensing period and may not be more than 30 days old from the date the license is issued. The commission will not accept other commission forms.
3. Eye Exam: None at this time.
4. EKG: Not at this time.
5. Radiological Exams: The commission, Boxing Commissioner or physician may order a CAT scan (CT) of the brain with contrast, MRI or MRI/MRA of the brain with contrast, or other tests if a contestant:
 - (1) Has lost three bouts in a row by KO or TKO.
 - (2) Has lost five bouts in a row.
 - (3) Has an extensive losing record.
 - (4) Has a career of more than 350 rounds.
 - (5) Has suffered a concussion or difficulty where the physician has requested additional testing.
 - (6) Has been inactive for more than 30 months.
 - (7) Is a Pro or Amateur debut.
6. Neurological Exam: Not at this time.
7. Urinalysis: All contestants may be drug tested via urinalysis before (and sometimes after) their bout. All contestants when tested shall be given the standard 10-panel test. Steroid, ephedra, and related substance testing is at the discretion of the Commission.
8. Female Fighters: Female contestants must take a pregnancy test at the weigh-in, or the day of the event.
9. Older Fighters: Professional contestants 35 and older may be required to submit a cat scan (CT) of the brain with contrast, MRI, or MRI/MRA examination with contrast to the athletic commission prior to being licensed, or a Neurological

exam that would be valid for 15 months. CAT scan (CT) examination results may be accepted within two years or unless otherwise directed by the commission, Boxing Commissioner or physician. MRI or MRI/MRA brain examination results may be accepted within four years or unless otherwise directed by the commission, Boxing Commissioner or physician. Contestants 39 and older will be evaluated on a case-by-case basis, and the commission will determine if they are required to submit all or some of the following medical examinations (Any of these test can be requested again after a bout):

- (1) Cat scan (CT) of the brain with contrast, MRI, or MRI/MRA brain examination with contrast. MRI or MRI/MRA brain examination results may be accepted within four years or unless otherwise directed by the commission, Boxing Commissioner or physician. CAT scan (CT) examination results may be accepted within two years or unless otherwise directed by the commission, Boxing Commissioner or physician.
- (2) An EKG examination with cardiology clearance good for 12 months (Depending on EKG results, commission may require stress test.)
- (3) Metabolic blood profile good for 12 months (CBC, Electrolytes, Creatinine, Liver function, etc.)
- (4) Eye Exam: A dilated ophthalmological exam is required and must be performed by either a licensed optometrist or licensed ophthalmologist. This exam is valid for 12 months.
- (5) A Neurological exam is required and is valid for 15 months.
- (6) A chest X-ray that has been given within two years

10. Additional Requirements: All tests besides physicals and blood work must have been submitted within sixty days to get licensed by the Kansas State Athletic Commission.

Amateur MMA

1. Blood Work: Contestants 18 through 38 years of age do not need to submit blood work. Contestants 39 and older must submit the following blood work:
 - (A) Negative HIV
 - (B) Negative hepatitis B surface antigen
 - (C) Negative hepatitis C antibody
 - (D) Metabolic blood profile good for 12 months (CBC, Electrolytes, Creatinine, Liver function, etc.)
 - (E) Procedures to complete when failing hepatitis B surface antigen test:
 - (1) Contestant must pass a hepatitis B "PCR" quantitative test.
 - (2) The quantitative limit must be within permissible limits according to the laboratory that administered the testing.
 - (3) Test and results must have been taken within two weeks prior to the event.

All blood tests taken more than 6 months prior to the date of submittal will require a contestant to be retested.

2. Physical: An annual complete physical is required and must be performed by a licensed M.D. or D.O. Physicals are valid for the licensing period and may not be

- more than 30 days old from the date the license is issued. The commission will not accept other commission forms.
3. Eye Exam: None at this time.
 4. EKG: None at this time.
 5. Radiological Exams: None at this time.
 6. Neurological Exam: Not at this time.
 7. Urinalysis: Not at this time.
 8. Female Fighters: Female contestants must take a pregnancy test the day of weigh ins, or the day of the event.
 9. Older Fighters: Contestants 39 and older must submit the following blood work:
 - (A) Negative HIV
 - (B) Negative hepatitis B surface antigen
 - (C) Negative hepatitis C antibody
 - (D) Metabolic blood profile good for 12 months (CBC, Electrolytes, Creatinine, Liver function, etc.)
 - (E) Procedures to complete when failing hepatitis B surface antigen test:
 - (1) Contestant must pass a hepatitis B "PCR" quantitative test.
 - (2) The quantitative limit must be within permissible limits according to the laboratory that administered the testing.
 - (3) Test and results must have been taken within two weeks prior to the event.
- All blood tests taken more than 6 months prior to the date of submittal will require a contestant to be retested.
10. Additional Requirements: None at this time.

Kentucky (KY) – confirmed by Angela Robertson

Professional Boxing, Professional Kickboxing, & MMA - All medicals must come directly from the physician or lab due to fraudulent submissions.

1. Blood Work: HIV, Hepatitis B Surface Antigen; Hepatitis C Antibody. Blood work is required at the very minimum 24 hours in advance. For amateur MMA fighters, blood work is valid for one year. For professional boxers, professional kickboxers, and professional MMA fighters, blood work is valid for 6 months. Additional blood work may be required for fighters 40 and over as determined by the ringside physician at the weigh-in.
2. Physical: prefight physical at weigh-in. Boxers/Kickboxers/MMA fighters who are 40 and over will need to undergo a comprehensive physical exam that will be performed by the ringside physician (either an M.D. or D.O. licensed by KBWA).
3. Eye Exam: None at this time.
4. EKG: None at this time.
5. Radiological Exams: None at this time.
6. Neurological Exam: None at this time.
7. Urinalysis: Random drug testing is done. This is a rapid test before the show. If a test is refused it constitutes a failed test. If a test is failed the licensee may request lab testing be done and if the test returns with a positive the fighter is responsible for the lab testing fee.
8. Female Fighters – All females must take a pregnancy test onsite at the event.

9. Older Fighters: Any fighter 40 and older must have a complete physical administered by the ringside physician. Additional specialized testing may be required, such as a CT of the brain with/without contrast, an MRI of the brain with/without contrast, an EKG, a Neurological exam, an EEG, a Stress test, as well as additional blood work.
10. Additional Requirements: None at this time.

Professional Wrestling

1. Blood Work: None at this time.
