We are always working towards creating a better, more functional system focused on athletic commission users. However, we do want to also continue making the system better for the promoters and sanctioning bodies who also use the system.

- Create designation of 'Supervised' for events and bouts which are overseen by a sanctioning body, but not an athletic commission. Fills the gap between Official and Non-regulated bouts.**
- A robust set of tools for promoters to maintain their roster, define champions, and access to advanced fighter search (in progress)**
- Create generated 'bout sheet' for fight night for promoters and commission**
